

POTTER IS KILLED BY TRAIN

CHESTER COAL MINER'S BACK IS BROKEN BY FALL OF SLATE

A. R. Dulsko, 35, Taken To Mt. Vernon Hospital.

MAN PARALYZED

Wife, With Two Tots, Will Carry on Coal Business.

A. R. Dulsko, 35, coal mine operator near the Washington school, three and one-half miles from Chester, is in a critical condition in the Mt. Vernon, O. hospital today, suffering from a broken back sustained when he was struck by a fall of slate while digging coal.

Fellow Miner Unhurt.
In an effort to save the man's life, an operation was performed on his spine by Dr. G. W. Williams, surgeon-specialist and former superintendent of the Seventh Day Adventists' hospital at Washington, D. C.

Dulsko, whose back was fractured in three places, exposing his spinal cord, is paralyzed.

He was sitting in the mine, digging coal with a pick, when the slate cracked upon him. Clark Cronin, a fellow miner standing not more than two feet away, escaped injury.

First Accident in 21 Years.
The injured man was rescued by Cronin, who carried him to the mouth of the mine. The Arner ambulance removed him to the City hospital where he was attended by Dr. C. A. Shafer, Chester. Later he was taken to the Mt. Vernon hospital.

Although Dulsko has been engaged in coal mining for 21 years, this was his first accident. He has a wife and two daughters, Norabelle and Virginia.

Mrs. Dulsko plans to operate the mine, which supplies the neighborhood trade, while her husband is confined in the hospital.

M. J. Newman was chairman. About 25 members and friends of the club attended. Albert Froesch presided.

OHIOAN DIES AS HOME BURNS

Mathias Jersha, 55, Trapped in Cleveland Cottage.

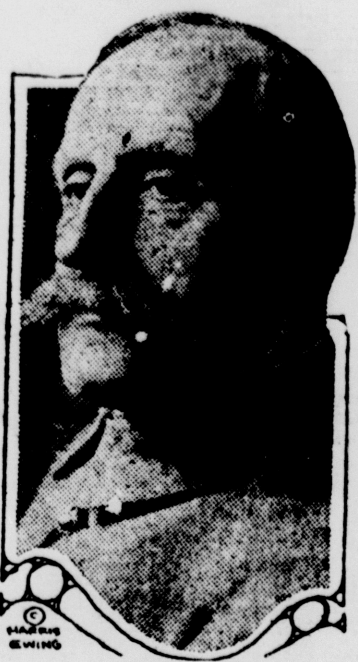

CLEVELAND, Jan. 15. — Mathias Jersha, 55, was burned to death here early today when fire destroyed a one-story cottage in which he lived.

Origin of the blaze has not been determined but it is believed to have resulted from an open fire with which the victim was attempting to keep warm. His body was found on a mattress on the floor.

About \$25,000 loss resulted from a fire in the Court Square building, in the downtown section. The blaze started in the basement and seriously damaged the offices of William J. Zeul, known here as "the marrying justice-of-the-peace."

CRITICALLY ILL

Marshal Foch.

MARSHAL FOCH AND 'TIGER' ARE ILL IN PARIS

France's Foremost War Hero Has Heart Attack.

STRENGTH WANES

Clemenceau Confined To His Bed With Grippe.

PARIS, Jan. 15. — Marshal Ferdinand Foch, France's foremost war hero, and Georges Clemenceau, wartime premier of France, are both ill today. M. Clemenceau has the grippe. The following bulletin on the condition of the marshal was issued at 9:30 o'clock.

"There is a slight reduction in strength. The heart and kidney conditions prevent any improvement." The advanced ages of the two distinguished men militate against rapid recovery. Marshal Foch is in his 87th year; M. Clemenceau is in the 88th year.

Former Premier Clemenceau's illness was revealed when an International New Service correspondent called at his home in the Rue Franklin to inform him of Marshal Foch's serious condition. The aged "Tiger," as he has long been known because of his vigorous political policies, was found confined to his bed with the grippe. He is under the care of Dr. Degennes, one of the six doctors who has been treating Marshal Foch. It was stated at M. Clemenceau's home that the grippe attack is a light one.

NEWSPAPER TAX RULING IS MADE

WASHINGTON, Jan. 15. — Decisions of importance to newspaper publishers were handed down today by the board of tax appeals.

The questions arose in the case of Walter S. Dickey, Kansas City publisher, who obtained a re-determination of income taxes for the years 1920-1923.

The board held Dickey was entitled to deduct 10 per cent a year for depreciation of printing presses and machinery, to deduct the full amount of operating expenses of his business, but decided that money expended to build up circulation cannot be deducted from gross income for the purpose of making tax returns.

Commissioners Ask for Report On Non-Resident Judge Cost

The Southern Columbiana County Bar association proposal for the establishment of a second common pleas court at Lisbon, was presented to the county commissioners by former Prosecuting Attorney Robert M. Brooks yesterday afternoon.

Deferring action, the commissioners requested County Auditor Elmer E. Walker to submit a report of the expense involved in the assignment of non-resident judges to Columbiana county in recent years. A visiting judge, under a change in the law a

year ago, receives \$20 a day and railroad and hotel expenses.

According to bar association members, the expense for an extra judge totals the amount the county would contribute toward the salary of a full-time jurist. The state pays \$3,000 of the \$5,175 a year received by a Columbiana county common pleas judge.

A committee from the bar association is in Columbus today conferring with legislative leaders regarding the introduction of a bill which would create a second common pleas judge in the county.

Woman, Clad Only in Night Gown, Wanders In Zero Weather Until Rushed to Hospital.

CHICAGO, Jan. 15. — Fred A. Hayner, well known sports writer on the staff of the Chicago Daily News, was found burned to death today in the ruins of his \$50,000 Lake Forest home. His wife and two children narrowly escaped the flames.

The fire broke out shortly before midnight after Hayner had gone to the basement to tend the oil-burning heating plant. An explosion is believed to have started the fire.

Firemen Rescue Two Sons.
Neighbors, attracted by the flames, found Mrs. Hayner wandering in the snow, clad only in a night gown. The mercury stood at zero. She was rushed to a hospital while firemen climbed to the second floor of the burning building and rescued two sons, Francis, 12, and James, 14.

It was several hours before firemen could enter the smoldering ruins to search for Hayner's body. It was found in the debris of the laundry room, several feet from the furnace, the face seared beyond recognition.

Victim Once Noted Grid Player.
Meanwhile, firemen had to hold back by force the two young sons to keep them from rushing into the burning structure in search of their father.

Hayner was once a noted football player and referee. He attended Lake Forest college and was a member of the school's grid team in 1893 when Lake Forest beat Chicago. He was formerly sporting editor of the paper on which he served at the time of his tragic death.

RALPH ANANIA IS FINED \$200

Ralph Anania, Third street, was fined \$200 and costs by Municipal Judge J. C. Hanley late yesterday afternoon when he pleaded guilty to a charge of possessing intoxicating liquors.

Anania was arrested by Patrolman Norman McFarland as he entered the door of a Broadway office building at 4 o'clock yesterday afternoon, while carrying two pints of Canadian bonded whisky.

He paid his fine and was released.

50 NEW CASES OF FLU HERE

Health Commissioner Asks Co-operation in Disease Fight.

Approximately 50 new cases of influenza have been reported by East Liverpool physicians during the last three days, health board officials said today. Most of this number, physicians said, were relapses with pneumonia developing.

Physicians expressed the opinion that the situation is improving with colder weather prevailing.

Illness is still affecting school attendance. About 125 students were reported absent from high school today. No report was available as to the number of absentees in the grades. Twelve elementary teachers were ill today, while nine were yesterday.

Health Commissioner Dr. Edward Miskall today asked for the co-operation of the general public in preventing the spread of influenza. Persons suffering from colds or coughs are urged to avoid mingling with crowds in theaters, stores, schools, churches or at other public places.

TWO WOMEN, ONE MAN ARE GIVEN SENTENCES TO REFORMATORY

Four Indicted by Grand Jury Plead Guilty.

HOLDUP ADMITTED

Six Criminal Cases Assigned for Trial Next Week.

Reformatory terms for two women and one man were meted out by Judge W. F. Lones in common pleas court at Lisbon today to three of the four prisoners who entered pleas of guilty to indictments returned by the recent grand jury.

Walter Yost, East Liverpool, indicted for operating a motor vehicle without the consent of the owner, was sentenced to serve from one to 20 years in the Mansfield reformatory. He said that he was drunk when he took the automobile of Miss Frances Soule from its parking place in Fourth street and later abandoned it in Rural lane.

Miss Irene Polk, former bookkeeper, was given an indeterminate sentence in the Marysville reformatory for embezzlement of \$662.39 from the Ray Birch Motor Sales, her former employer.

Walker Case Continued.
Miss Helen Hines, Salem, indicted twice, for uttering and publishing a forged instrument and forged checks, was also sentenced to Marysville for an indeterminate term.

Case of Charles Walker, East Liverpool, who was jointly indicted with Herbert E. Mounts for the robbery of the tollhouse on the Newell-East Liverpool bridge last spring and who pleaded guilty when arraigned yesterday, was continued. Judge Lones appointed Attorney W. H. Vordrey of East Liverpool to make an investigation of Walker's case, reporting to him later. Mounts is said to be in a California reformatory.

Two-Day Assignment.
Six criminal cases have been assigned for trial before Judge Lones on Monday and Tuesday of next week. They are: John Susinka, East Liverpool, indicted for manufacturing intoxicating liquors; Edward Whitehead, West Point, criminal assault, and William Martina, Canton, attempted burglary, all of which have been assigned for Monday, and George Spak, Salem, operating a motor vehicle without the owner's consent; Lawrence Bailey, Liverpool township, manufacturing distilled liquors, and Ray Smith, Salem, uttering and publishing forged instrument, listed for Tuesday.

Court will adjourn on Wednesday because of the mid-winter meeting of the Ohio State Bar association which will be held in Cleveland Thursday, Friday and Saturday.

PLAN DRY LAW DAY IN SCHOOL

Temperance Program Will be Featured Friday.

Ninth anniversary of the adoption of the eighteenth amendment will be celebrated with "Temperance Day" programs in the East Liverpool schools next Friday in keeping with orders issued by J. L. Clifton, Columbus, state director of education.

Wednesday, Jan. 16, is the anniversary of national prohibition, but the event will be celebrated on Friday. Clifton, in outlining a suggested program, urged that two hours be set aside to impress children of the benefits resulting from the abstinence of the use of intoxicating liquors.

Short programs will be carried out in the elementary schools and also in the high school, the feature being left in the hands of the teachers, according to Superintendent C. S. McVay. Copy of the program suggested by Clifton, which includes dialogues and exercises by the children and an address by a local speaker, has been sent to each teacher.

Ora Slater Hints "Pay Dirt" In Horst Boy Disappearance

WOOSTER, O., Jan. 15. — The possibility of a "break" in the disappearance mystery of four-year-old Melvin Horst, Orville, loomed here today, according to Ora Slater, Cincinnati detective who is conducting the investigation. Slater declared that a friend of Mrs. Dorothy McHenry, one of the five persons under indictment for child-stealing, has changed her story and that it may lead to the discovery of Melvin's whereabouts, if he is alive.

Slater refused to divulge details, but intimated he had at last struck "pay dirt," which means something tangible in detective parlance.

Difficulties between the county prosecutor's office and Detective John Stevens, conducting the probe in Orville, continue. It was learned today with the formal protest against the non-cooperative plan being followed in Orville.

ARTHUR HILL IS VICTIM OF ACCIDENT NEAR ERWIN, TENN.

Former E. Liverpool Man's Parents Advised of Death.

DETAILS MEAGRE

Body Will be Sent To E. Palestine for Burial.

Arthur Hill, 31, former East Liverpool potter, was killed in a railroad accident near Erwin, Tenn., yesterday, according to a message received by his parents, Mr. and Mrs. Lemoine Hill, East Palestine.

Details of the accident were not contained in the telegram. Hill left here last Wednesday for Erwin to accept a job as jiggerman in the Southern Potteries company's plant. His body will be brought to East Palestine for burial.

The train victim recently completed his apprenticeship at the Cronin Brothers China company's plant in New Cumberland, W. Va. A few weeks ago he returned to this city, and had been working as a batterot at the No. 6 plant of the Homer Laughlin China company in Newell.

Besides his parents, he is survived by his widow, Mrs. Esther Turnbull Hill, who lives with her aunt, Mrs. Joseph Hurley, Dresden avenue, and a brother in East Palestine.

When Pain Comes

Two hours after eating

What many people call indigestion very often means excess acid in the stomach. The stomach nerves have been overstimulated, and food sours. The corrective is an alkali, which neutralizes acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 50 years since its invention. One spoonful of this harmless, tasteless alkali in water will neutralize instantly many times as much acid, and

the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this. Go get a small bottle to try.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. 25c and 50c a bottle—any drugstore.

"Milk of Magnesia" has been the U. S. Registered Trade Mark of The Charles H. Phillips Chemical Company and its predecessor Charles H. Phillips since 1875.

"Light a Lucky and you'll never miss sweets that make you fat"

Constance Talmadge

Constance Talmadge, Charming Motion Picture Star

Constance Talmadge, Charming Motion Picture Star

Reach for a Lucky instead of a sweet.

INSTEAD of eating between meals . . . instead of fattening sweets . . . beautiful women keep youthful slenderness these days by smoking Luckies. The smartest and loveliest women of the modern stage take this means of keeping slender . . . when others nibble fattening sweets, they light a Lucky!

Lucky Strike is a delightful blend of the world's finest tobaccos. These tobaccos are toasted—a costly extra process which develops and improves the flavor. That's why Luckies are a delightful alternative for fattening sweets. That's why there's real health in Lucky Strike. That's why folks say: "It's good to smoke Luckies."

For years this has been no secret to those men who keep fit and trim. They know that Luckies steady their nerves and do not harm their physical condition. They know that Lucky Strike is the favorite cigarette of many prominent athletes, who must keep in good shape. They respect the opinions of 20,679 physicians who maintain that Luckies are less irritating to the throat than other cigarettes.

A reasonable proportion of sugar in the diet is recommended, but the authorities are overwhelming that too many fattening sweets are harmful and that too many such are eaten by the American people. So, for moderation's sake we say:—

"REACH FOR A LUCKY INSTEAD OF A SWEET."

TWO COUNTIES TO SEEK CONTROL OF FAIRMOUNT CHILDREN'S HOME

Columbiana and Stark
Will Ask Legislature to
Amend Law Enacted in
1876.

LISBON, O., Jan. 15.—Commissioners of Columbiana county will join with Stark county in petitioning the state legislature to amend the law enacted in 1876 which placed the management of the two-county Fairmount children's home at Alliance in charge of five trustees.

COUNTY FAVORS CROSSING JOB

Columbiana county is ready to join with the state highway department and the Pennsylvania and Youngstown & Ohio River Railroad companies in the erection of an overhead crossing on the Salem-Lisbon road, it was announced today.

DOG TAX TIME LIMIT IS JAN. 20

Time for the payment of dog licenses without penalty will expire Jan. 20, and as this date falls on Sunday, County Dog Warden C. E. Donahy will be at the court house, Lisbon, until 5 o'clock Saturday night to collect the tax, \$1 for males and \$3 for females. A penalty of \$1 will be collected from all those who apply for licenses next week. With more than 6,000 dogs in the county, less than 2,600 licenses have been issued so far.

NAME FRANK BYE BOARD CHAIRMAN

Frank Bye of Middleport township has been elected president of the county commissioners, succeeding Commissioner J. C. Kelly. Next January Commissioner J. Howard Sinclair will be named president of the board.

SUCCESSFUL METHODS FOR COMBATting FLU AND COLDS

Follow These Rules — Do Not Fool With a Cold — Use Tried Safe Methods

Look out for colds—even mild colds in the head and throat.
Don't let them get down into the chest and lungs.
Don't expose yourself to damp or wet weather.
Don't go out if you are feeling sick. Influenza, grippe, pneumonia or other serious sickness often comes from colds.

THE DANGER.
Cold, "Flu" and Pneumonia Germs multiply by the millions and attack the weak and the strong alike. Watch out for colds, they weaken your resistance. The greatest danger lies in that "simple cold." Kill that cold quickly.
It is of vast importance to clean out the entire intestinal tract, upper and lower bowels regularly. Keep the kidneys well flushed and freshen and strengthen the blood.

Coughs Stopped Almost Instantly

Doctor's Prescription Relieves Without Harmful Drugs

Almost instant relief for coughs is now guaranteed in the use of a famous physician's prescription called Thoxine which contains no chloroform or dope. It works on an entirely different principle, has a double action, relieves the irritation and goes direct to the internal cause not reached by cough syrups and patent medicines. The very first swallow usually relieves.

Thoxine is pleasant and safe for the whole family. Also excellent for sore throat. Quick relief guaranteed or your money back. 35c., 60c., and \$1.00. All druggists.

THE RIGHT WAY TO BANISH FAT

Combat a cause which modern research has discovered. Turn food into fuel and energy, rather than into fat. Supply a natural element which your system lacks. That is the method embodied in Marmola prescription tablets.

People have used Marmola for 20 years—millions of boxes of it. They have told others the results. Now, in almost every circle, you can see the results in new beauty and new vim. Why not learn the way to attain them?

A book in each box of Marmola tells you the formula, also the reasons for results. You will know why the effects come, and why they are beneficial. Go ask your druggist—in fairness to yourself—for a \$1 box of Marmola.

New Administration

Governor-elect Myers Y. Cooper went into office yesterday pledged to an administration of economy. He has announced that so far as he is able to control matters the present legislature will enact few new laws, bending its labors, rather, to clarifying the myriad ones now on the statute books and eliminating the useless.

In this worthy program leaders of both houses have expressed themselves in full accord. Speaker Gray has gone so far as to say that the assembly shall adjourn at the end of 90 days, a rare accomplishment in the history of Ohio legislatures.

Knowing state senators and representatives, it is hard to conceive that the legislative hopper will not be filled to overflowing with bills of every sort.

That apparently is a legislator's privilege, and there's another election coming two years hence with its burden of proper campaign fodder!

Of course, with both houses in the hands of the administration, the well-oiled rules or "steering" committee can do wonders with bills not thought appropriate, but all that takes time.

The administration program, as outlined spells progress. A state constabulary bill; lifting tax burdens to attract industry to the state; plans to help agriculture to get on a paying basis again in the state, and economy measures, including the consolidation of certain state departments and abolition of others, all speak for that progress.

It would be a pity if legislators, seeking self-glory, should block such progress.

Wise laws are a blessing, but useless cluttering of the statutes for the mere purpose of perpetuating one's name as the author of some law, even though a dead one, not only is expensive but selfish.

Get Big Offenders!

Governor Fred Green of Michigan, is thinking of asking the legislature there to modify the habitual criminal law which recently sent a woman to state's prison for life because she was found with a pint of liquor in her possession. The woman, of course, had been convicted three previous times of offenses against the prohibitory law, and upon her fourth conviction automatically came within purview of the habitual criminal law.

It is Governor Green's contention that the law is some what stringent when it sends men and women to prison for life for dabbling in minor prohibitory law infractions. In this respect he is not wrong. If the law had struck at the "higher ups" who are responsible in Michigan for much of the liquor which comes into Ohio and other nearby state, there would have been no voice raised against the extreme penalty exacted.

But the law took a mother from her children. True, the woman was a law breaker—four times a law-breaker, in fact. But her offense was petit larceny, as compared with the offenses of some others in Michigan.

The habitual criminal law ought to be invoked against the big fellows who are bootlegging in Michigan, and not against hip pocket peddlers. If Governor Green gets the law modified so it will not work so harsh a sentence on the little offenders he will have accomplished a great deal. Then let him get the big offenders, and make them subject to the habitual criminal act.

Two-day Ocean Flights

Report has a number of American capitalists behind a project, the active figure in which is a well-known airplane constructor, to link the United States and Europe with a two-day air service.

It is planned to fly four-motored amphibian planes over a course which will touch Bermuda, the Azores and southern Spain with four big floating islands of steel at intermediate points. The plan is said to have progressed so far that one of these floating islands is already under construction. If it proves successful, the other three will be constructed and so distributed as to divide, with Bermuda, the Azores and southern Spain, the sea distance between the American coast at some point south of New York city and the coast of northwestern France into as near even distances as possible.

These platforms, which are to rest upon great pontoons of heavy construction, will be sufficiently high above the sea to escape the waves save in the most severe weather. Their purpose is to serve the air line as airports.

The idea of floating airports is by no means an entirely new one. However, it is bound to appear to the average reader as something of a dream. Still before Lindbergh blazed the way, a non-stop flight across the North Atlantic at its extreme width was considered nothing more than a dream.

Cruiser Bill Foes Hit

Judging by advices from Washington, the various pacifist and socialist organizations arrayed against the 15-cruiser bill endorsed by President Coolidge are not going to have the easy sailing they hoped for in accomplishing the defeat of that proposal. They have found by a canvass that many members of the upper house they expected to get on record against the bill refuse to be either browbeaten or intimidated.

Pacifist leaders had hoped to put the entire senate membership on record as the outcome of the demonstration held by them in Washington, at which Frederick J. Libby, of the National Council for the Prevention of War, is reported to have been the dominating spirit. It had been planned that delegates from each state in the union would be present to bring personal pressure upon its senatorial representatives, but if they were it is evident that few, if any, of them had the personal influence necessary to get members of the senate to commit themselves in opposition to the bill. In any event, of the 20 members reported to have been seen, all but three were found to be for the bill.

HASKIN DAILY LETTER

By Frederick J. Haskin

WASHINGTON, D. C., Jan. 15.—Immediately following the first of any new year there is a relaxation in the credit strain. The new year is a period of large dividend distributions and also of liquidation of indebtedness. Moreover, the enormous volume of retail trade during the holiday season releases very large sums. January is a period of waiting in which business readjusts itself before embarking upon the real business of the new year. In consequence, banks have more money than usual to lend and interest rates have a tendency to decline. While this situation, in itself, constitutes an incentive to go into the market and speculate with cheap money the indicators for the entire year suggest caution and a subsequent tightening of money which would be more than likely to find persons attracted by the cheap January funds overextended.

The average volume of this January return of money to the banks for the last four years has been \$271,000,000. In January, 1928, this figure climbed to \$326,000,000 and it is quite possible that figure may be exceeded this month. Those are bank funds alone. Corporation funds also are likely to show increases and as corporations have increasingly tended to go into competition with the banks in furnishing money for stock market speculation—there was an increase of \$1,300,000,000 last year—the total supply available is tempting. Big men in the banking and business world are decidedly optimistic concerning continued prosperity for the next year. No fundamental weakness is discerned in our economic position. This large supply of January money coupled with glowing business prospects constitutes an attractive lure to the unwary investor.

If there is one keystone supporting the arch of prosperity which can be identified with certainty it is the interest rate for money. There is a necessity for the American banks to maintain interest rates at a high level so any relaxed rates in the early part of the year must not be expected to continue. This necessity for high rates arises from the world gold situation. A spectacular struggle for gold now is going on throughout the world. It has been reported in this column recently how all the principal governments of the world are conducting a survey of their potential gold resources. This information is desired to the end that national treasuries may know what supplies to expect and whence they will come. The information will be in hand next August. Meantime every country is striving to get all the gold it can. The business of the world is spinning like a top and the number of revolutions per minute is steadily increasing. To keep the top spinning, to keep business going at this fast pace, there must be ample credit—the lubricant of industry and trade—and to provide ample credit there must be gold back of currency issues and international exchanges.

Gold is a wayward and fluid commodity. It will go where it can earn the highest rate of interest and automatically as war will flow down hill; that is, provided no national embargoes exist and as such embargoes usually are war measures none is likely to be laid in 1929.

For this reason, money rates in the United States must remain on a fairly high level to give funds a return in interest which will prevent them from going abroad to find more lucrative employment. There is a substantial lesson in the fact that in 1928 Germany was the world's most spectacular gainer of gold. Her gold reserves in the Reichsbank rose no less than \$120,000,000 during the year, and this in spite of the fact that her trade balance was adverse. Moreover, she had heavy reparation payments to make. The explanation is that in all German banking centers interest rates have been high and the discount rate of the Reichsbank has stood at the relatively high figure of 7 per cent ever since October of 1927.

The Bank of France, the Bank of the Netherlands, the Bank of Italy, the National Bank of Belgium, and the Austrian National Bank all show gold gains for the year. Much of their gold gains have come from the United States. On December 28, 1927, the Federal Reserve banks of the United States showed gold holdings of \$2,739,000,000. On December 26 of 1928 this figure had declined to \$2,584,000,000. Our stock still is the largest in the world and there is nothing to worry about on that score but it is conceivable that if our interest rates sink to a low level hundreds of millions would be added to our losses to foreign countries.

Such a situation spells caution, for it clearly suggests that American bankers will not permit rates to sink to a point which would endanger our gold holdings. In turn, that means that money will not continue cheap. But substantial interest rates by no means indicate bad business. American earnings are at a high level and promise to continue there. Save for the textile and bituminous coal industries the whole nation is prosperous. The extent to which the American public purchased new securities during 1928 reveals how much money they had to spare for investment which on the one hand represents a saving on the part of purchaser and on the other provides industry with capital for expansion and increased business. In 1927 capital issues to the extent of \$9,871,000,000 were purchased by the American people. In the first eleven months of 1928 sales of securities amounted to \$9,500,000,000. If the monthly rate of purchase was maintained through December, as it undoubtedly was, it will be seen that 1928 will exceed 1927 which, up to that time, was the record for all years. The greatest amount of such corporate securities was issued on the properties of public utilities—\$1,714,000,000.

Questions And Answers

By Frederic J. Haskin.

This is a special department devoted to the handling of inquiries. You have at your disposal an extensive organization in Washington to serve you in any capacity that relates to information. Write your question, your name, and your address clearly, and enclose two cents in coin or stamps for reply. Send to The East Liverpool Review Information Bureau, Frederic J. Haskin, Director, Washington, D. C.

Q. What position did William Howard Taft hold after he was president and before he became Chief Justice of the Supreme court? H. McW.
A. He was a professor in Yale university.

Q. How is salt water made fresh on shipboard with an evaporator? D. J.
A. In a ship, salt water is boiled in evaporators. The steam rises through pipe to distiller which consists of coils with cold water running over them. This condenses the steam, forming fresh water.

Q. Please advise what makes my young goldfish so dark? L. A. R.
A. All young goldfish are dark in color at first, and change to bright colors as they grow older. Some never change, some change very early, and others change very late.

Q. Do monkeys and other animals use their right limbs more than their left, as humans do? A. L. R.
A. Monkeys and other animals in general do not use their right limbs any more than their left. In some species one limb is used more constantly than the other.

Rosalie's going window shopping. It's time to think of Spring clothes. We do it in the middle of the Winter nowadays. The smart shop windows are sure to have the newest colors. Rosalie doesn't care for root beer as a drink but as one of the new colors it's very lovely. Then there are those named for famous people, fruits and flowers in all their hues, cravat colors or cravat silks, off-whites that also will be used in accessories, some pastels, many bright colors used in contrasting combinations but not much gray, although beige tags right along.

hemorrhage six months ago gave warning and I have taken precautions ever since. I experience a rattling in the chest at night and my temperature goes up on slightest exertion—what would you advise?

A.—Have your doctor examine you again—be sure not to overexert in any way and have all the rest and fresh air possible. You should weigh about 144 pounds.

There can be no doubt that there are disadvantages to overweight. It is not alone because of the appearance of the victim, but because of its effects upon health, that we disapprove of surplus flesh.

Many times I have reviewed the testimony of a committee of experts who studied the records of several large life insurance companies. These men reached the conclusion that overweight was a distinct menace to health. At the end of their survey they stated, among other things, that a man fifty years of age who is fifty pounds overweight has lessened his expectation of life by at least 50 per cent.

Fat is not laid on the outside of the body as plaster is laid on the walls of a house. On the contrary, it is distributed throughout the body, involving all the organs and structures of the body. The fat may replace in part the muscles of the heart, it may choke the kidneys and liver, it may interfere with and weaken all the functions.

With this picture in mind, you can appreciate its bad effects. It will be seen without further argument that health and vigor will suffer if fat is permitted to accumulate and produce such effects. It is clear that it is your duty to yourself to avoid this evil.

But what about the person, particularly the woman, who has taken on a lot of surplus fat and has suffered from overweight for years? What should she do?

The abdominal organs, notably the stomach and intestines, and the pelvic organs, particularly the uterus, require certain supports. Nature has provided this in the ligaments and other devices planned for the very purpose of holding them in place.

If fat is deposited in the tissues in large quantities the localized accumulations of this substance serve as additional supports to the organs. Indeed, the fat may take from the anatomical structure intended to carry the weight of these organs a large percentage of their work. In consequence, the ligaments and natural supporting devices may lose tone and strength.

In a case of this sort the rapid withdrawal of the accumulated fat may take away the support upon which the body has come to rely. In consequence, the organs drop and may be materially displaced by the removal of the abnormal props.

My warning to fleshy people who have endured their overweight for years is to be extremely deliberate in fat reduction. It is dangerous to go too fast. Drooping—"prolapsed"—the doctors call it—may be produced if the fat is withdrawn. The fat might better be endured for health's sake than to be dissolved to speedily for the sake of appearances.

The conclusion of the whole matter is this: It is better to stay fat than by violent methods to get thin.

Behold The Killer.

For sheer wantonness and brutality, the murder of John Oser and his wife at their Canal Fulton dairy farm is without a match on the records of Stark county crime. The confession of the youth who did the killing lacks a single circumstance to soften the monstrous background of his act. Coveting the money and new motor car owned by his victim, in cold blood he shot them down from a secure ambush that gave his own worthless life every protection. In the result he destroyed a household that was the pride of the neighborhood in which it was placed, brought lifelong sorrow to two children orphaned by his act, and tragedy to a community that has not yet recovered from its amazement that with all its zeal for the protection of human life such a thing could happen.

Now that the killer has been placed in the Stark county jail it is to be hoped that the courts of that county will see that swift and exemplary punishment is administered to the craven youth who brought this calamity upon it. As long as his kind clamor in spite of all the host of culture and law and order, life for others in the very shadow of schoolhouses, churches and temples of justice will be less secure than in the reaches of the jungle. His confession, and the ghastly evidences of his crime, have left him bereft of any shred of the popular sympathy which the mawk sentiment of the times sometimes accords to killers of his type. The public will have no patience with efforts to give him the advantage of the technical defenses and delays which are so often employed to give such monsters the right to life which they have so cruelly denied to their innocent and helpless victims.—Akron Beacon Journal.

Once Overs

Do You Quarrel at Dinner?

What sort of an occasion is meal-time in your household?

Is it the time when each member of the family eats as rapidly as possible, and then leaves the table and goes about what he or she wants to do, without the courtesy of waiting for the others to finish?

An "every fellow for himself" atmosphere is not good for digestion. Or, is the table the place where you, as head of the house, scold the children?

Perhaps, Mother, you tell Father of the bad actions of each one of your children.

And wordy and heated arguments arise.

Before the meal is over it becomes a family quarrel.

Perhaps you put the paper up in front of you and demand that the others cease talking.

Then you become so interested in your paper that you do not enter into the conversation of your family.

The children have found out that most anything can be put over on you when you read at the meal hour, and you can blame yourself for it.

Quarreling and undue haste should not be a part of the family meal.

Happy meal hours aid digestion and leave a good taste in your mouth.

KEEP YOUR APPETITE YOUNG

If the things you used to like disagree with you, take a tablet of Pape's Diapepsin after a meal. It displaces the excess acid in the stomach, sweetens your food, and digests it. The nourishment from it produces good, healthy tissues and blood; you gain weight and strength and with that comes a healthy, youthful color.

Thousands of people who suffered from stomach trouble for years, praise Pape's Diapepsin for their good health and young appetite. They can now eat anything they want. That's why 6 million packages are used a year.

Any druggist will supply you with Pape's Diapepsin, because it is indispensable in every home.—Adv.

President, Miss Nellie Ogden; secretary, Mrs. Margaret McGavern, and treasurer, Mrs. Oma Ramsey.

Canton Rhodes No. 73 arranged to entertain the fourth regiment of the third battalion.

Why some children
are peevish.

Happy disposition easily
recovered.

Some children are liable to get bilious and irritable, just as grown-ups often do. It is easily remedied. Simply give a dose of "California Fig Syrup" and in a few hours the bowels will move, the liver will be relieved and all pent-up bile and sour, constipated waste removed, leaving the system clean and sweet and the child bright and energetic again.

"California Fig Syrup" banishes biliousness and constipation, regulates the bowels and insures pure blood, a clear complexion, joyous spirits, a keen brain, healthy appetite and aids sturdy growth.

To get the genuine California Fig Syrup, endorsed by physicians for 50 years, look for the name "California" on the package.—Adv.

Facing the cruelest test a skin can meet

"Without smooth skin,
no girl can be lovely,"
say leading directors

IT is the most precious charm a girl can have—clear velvety skin. All Hollywood agrees on this, leading stars and directors alike.

For there is something about lovely skin that sends a ripple of emotion through every heart.

And for the screen star, skin as smooth as a flower petal is a prime necessity.

"People open their hearts instantly to the appealing loveliness of exquisite skin," says Edward Sedgwick, Metro-Goldwyn-Mayer director, expressing the experience of 39 Hollywood directors. "Every star knows how essential it is to have beautiful, smooth skin."

Photo by C. S. Bull, Hollywood

The huge new incandescent "sun-spot" lights stream down heartlessly on the star's skin while the close-up is being taken. Any tiniest defect will be registered on the film, now more highly sensitized even than before. In consequence, of the 451 important actresses in Hollywood, including all stars, 442 guard the smoothness of their skin with Lux Toilet Soap.

JOAN CRAWFORD, fascinating Metro-Goldwyn-Mayer star, meets the brilliancy of the new incandescent "sun-spot" close-up lights with perfect self-confidence—because her lovely face and arms and shoulders are kept beautifully smooth with Lux Toilet Soap.

"I have tried innumerable French soaps but never have I had anything like Lux Toilet Soap for keeping my skin fresh and smooth. And 'studio skin' is the all-important asset for the star who must face into the glaring lights of the close-up."

guard their smooth skin this way

HOW well the lovely girls whose beauty stirs a million hearts every time they appear in a close-up, know that the skin must be kept rarely smooth!

Of the 451 important actresses in Hollywood, including all stars, 442 depend on Lux Toilet Soap to guard their skin.

The very next time you see Joan Crawford

or Ruth Taylor in the close-up, notice how captivatingly smooth Lux Toilet Soap keeps their skin.

Following the example of the stars, every one of the great film studios has made this soap the official soap in all dressing rooms.

If you haven't already discovered for yourself just how smooth this fragrant white soap keeps your skin, try it today.

You'll like it in your bath, too. It lathers so generously! Remember: 9 out of 10 screen stars use it.

STRANGE SEED WHICH BAFFLED BOTANISTS DIES DESPITE CARE

DENVER.—A strange seed which baffled local botanists as to its identity, sealed the mystery when it died in a greenhouse here.

The seed was found at the bottom of an eighteen foot excavation in the downtown section of Denver. The finder at first thought it only a smooth pebble, but when it was placed in water, green sprouts began shooting forth.

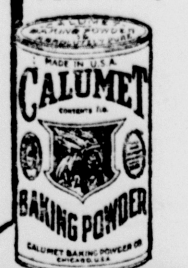

The seed was taken to a greenhouse and cared for with utmost concern by John Russell, superintendent of City Park, who hoped the bit of life would prove to be a scion of a prehistoric plant species. Soon, however, the sprouts wilted and died. Nothing remained but a dry husk.

CAPACITY CROWD IS EXPECTED AT CIVIC MUSIC CONCERT JAN. 22

**Charles Naegele, Pianist
And Miss Gladys
Swarthout, Mezzo Soprano, on Program.**

A capacity crowd is expected to attend the recital which will be given at the high school auditorium Tuesday night, Jan. 22, by Charles Naegele, pianist, and Miss Gladys Swarthout, mezzo soprano, under the auspices of the Civic Music association.

Naegele is thoroughly an American product. Born in New York, the son of distinguished parents, the young man grew up in an atmosphere that encouraged love of arts. His father was Charles Naegele, portrait painter, a native of Memphis and of Swiss extraction. His mother was born in Concord, N. H., of old New England stock, the daughter of an officer in the regular army. A painting of his mother and himself, by his father, now hangs in the national museum at Washington.

At the age of 16 he had already played for Paderewski, who pronounced him "wonderful." A year later he secretly entered a competition, the winning of which meant an orchestral appearance in Aeolian hall. He not only won an appearance with the orchestra, but was so enthusiastically received that the conductor requested him to repeat his performance with the orchestra on tour.

With the coming of the World war, Naegele volunteered as a wireless operator on a Belgian relief ship, and later enlisted in the U. S. Signal corps, subsequently receiving his commission. Returning to America, he

graduated from Yale university. All of his early musical training was in New York, followed later by four years of intensive study in Europe under such masters as Arthur Schnabel and Philipp.

Naegele then toured the continent giving concerts in Paris, Berlin, London, Liverpool, Manchester and all of the great musical centers of the Old World. His orchestral engagements included four appearances at Bournemouth during the summer of 1923. Upon his entire tour of Europe, critics forgot that he was a debut artist and greeted him with the acclaim of an artist well established in the world of music.

Returning to his home land, he made his New York debut in November, 1924, in Aeolian hall. Three weeks later he played again in the same hall, and this time before a thronged house. The public rushed to hear and approve.

REPORTS FROM STOCK MARKETS

NEW YORK, Jan. 15.—Most of the motor car steel and specialty stocks which "showed off" so effectively in yesterday's market were driven to slightly higher price levels this morning in front of a wave of vigorous speculative buying. The pools trimmed up their "pets" to the very best advantage to entice new buyers into the fold, while old favorites in the steel and motor group were also placed attractively on the selling counters.

Stocks of the bread baking companies pushed ahead one to three points in continuation of yesterday's new move. Continental Baking class A stock moved up nearly three points to 59 1/2, the B stock gaining a point on the average. Traders were unable to find out whether the dividend on Bethlehem Steel common is to be \$1 or \$1.50 a share, but Wall Street leans to the latter figure, and for that reason Bethlehem was in good demand around \$6 today.

Studebaker crossed 90 for the first time in its present form, having made an almost uninterrupted climb from 72 about two weeks ago. White Motors also broke into new high ground at 47 1/2, with market reports tying up the company with Mack Trucks and other truck manufacturers in a merger, which has been on the cards for a year or more. In the independent steel list, Vanadium's new five-point jump brought the stock up to 10 1/2.

International Combustion Engineering was the prize actor in the specialties, with a four-point move to 8 1/2.

GOV. COOPER, IN MESSAGE, URGES ECONOMY

Legislature Also Asked To Repeal Pence Act.

JOINT SESSION

Suggests Curb on Bills; Reads His Recommendations.

BY C. H. HADDOX.

COLUMBUS, O., Jan. 15.—Urging economy in state government, enactment of the least possible legislation, and requesting repeal of the Pence act which deals with the regulation of public utility rates, Governor Myers Y. Cooper read his initial legislative message before a joint session of the senate and house in the house chamber this afternoon.

Governor Cooper recommended the following legislation:

Repeal of the 1/2 percent tax increase placed two years ago upon the business of foreign insurance companies in Ohio.

Abolition of the statute providing for levying assessments upon adjoining property owners in connection with highway improvements.

Provide for permanent registration of voters; make a speedy appropriation for the state library; appropriate funds for immediate purchase of a site and for construction of a state office building, a permanent and modern conservation program.

Enact a sound, reasonable, workable blue-sky law; improve the Ohio system of criminal procedure; clarify and improve the general corporation act.

Urge Road Building.

Appropriate funds sufficient for further development of county roads, permit counties having a tax duplicate of real and personal property in excess of \$300,000,000 to cooperate with the state in new highway construction and widening of roads, as well as reconstruction work; appropriate in a lump sum money for maintaining state roads.

Comply with the requirement of the federal government which has announced that, after July 1, next, it will not allow federal aid to highway projects except in cases where the entire amount of money required of the state, of its subdivisions, for the project is subject to the direct control of the state.

Declaring that "success requires the closest working relationship between the governor and the legislators," Governor Cooper pledged the solons his "full and sincere support," and voiced his confidence of their "wholehearted cooperation."

He favored a permanent registration law designed to "reduce the opportunities for fraud, save our citizens much inconvenience, and, at the same time, lower the cost of elections."

Urging a new office building, Governor Cooper recommended that the structure be built in a "convenient location," and that it be "suitable to the needs of the various departments of state government."

In the enactment of a "blue sky" act, the governor favored a proposed law said to be endorsed by the Ohio State Bar association, the Investment Bankers' association and Better Business bureaus.

He advised the solons to give careful consideration to proposed amendments to the general corporation act prepared by attorneys cooperating with a committee of the Ohio State Bar association.

Hits Wrongdoers.

The governor, also, urged the enactment of a system of criminal procedure, which would have for its object the making more certain and clear the apprehension and punishment of wrongdoers, and the vindication of innocent persons wrongfully accused, simplifying and expediting the conduct of criminal trials and assuring that substantial justice shall be achieved.

Dealing with the subject of economy, Governor Cooper said:

"The time has come when those entrusted with the responsibility of legislative enactments and administrations of public affairs must hold rigidly to a program curtailing public expenditures, which are out of proportion to the benefits received. To accomplish this we must endeavor through a broad spirit of cooperation, to produce at once and the same time efficiency and economy in the public service."

"Such harmonious procedure is absolutely necessary in order that the constantly expanding needs of government, by reason of the growth in population and the increasing demands of our people for the extension of governmental activities, may be met without unduly increasing tax."

Cites Cost of Government.

Pointing out that the cost of state government in Ohio increased from approximately \$11,000,000 in 1923 to about \$60,000,000 last year, and that the state spent about \$94,000,000 in 1927 and 1928, Governor Cooper declared that "it is to be expected that the total cost of our state government for the next two years will exceed the total cost thereof for the past two years."

"While Ohio (insurance) companies are, apparently, exempted, the tax falls with almost double force upon our Ohio companies under retaliatory laws in other states," the governor explained, "while requesting a reduction of the state tax on foreign insurance companies."

Requesting repeal of the Pence act, Governor Cooper said, in part: "In order to cure the abuses growing out of the operation of the Pence law, and to facilitate the speedy determination of all questions relating to rates, I recommend, first, the repeal of the Pence law; second, the adoption of a constructive measure creating within the (state utilities) commission itself a division which will speed up the presentation of facts and evidence and result in an early hearing and prompt determination and third, that no increase in rates shall

OFFER LOWER RAIL RATE IN MONTGOMERY FIGHT

Trunk Line Carriers Oppose Road to Youngstown.

I. C. C. HEARING

Steel Mills Cite Freight Charges on Coal.

WASHINGTON, Jan. 15.—Trunk line carriers opposing the application made by the Pittsburgh-Lisbon & Western railroad to construct a new line from Youngstown to the Ohio river at Smiths Ferry, Pa., for the purpose of providing lower rail-water rates to the Mahoning valley steel district, yesterday submitted a counter proposal to the Interstate commission which if approved will prevent construction of the proposed line.

Appearing at a hearing held before Assistant Finance Director C. V. Burnside, Attorney Albert Ward, counsel for the Pennsylvania railroad, proposed to offer Youngstown the advantage of combined water-rail facilities by construction of new terminal facilities at Conway, Pa., located on the Ohio river about five miles from Beaver.

Ward said the Pennsylvania is prepared to extend interchange privileges to the New York Central and Baltimore & Ohio.

Last month the commission in passing upon the application of the Pittsburgh, Lisbon & Western, ruled that the combined river-rail facilities offered by the new line were desirable, but made no permanent decision pending a determination as to whether existing carriers were able to offer similar transportation.

Steel mills in the Youngstown district contend that high rates on coal from the Pennsylvania and West Virginia mines have forced them backward.

Ward said if the offer of the Pennsylvania is approved by the commission that not only Youngstown, but also Cleveland, Canton, Massillon, Akron and other manufacturing centers would get the benefits of the new lower rate.

Suggest Another Hearing Attorney Clyde Brown, counsel for the New York Central, said that his position was substantially the same as the Pennsylvania proposal. "We are prepared to offer river-rail facilities and also to offer reciprocal trackage rights," Brown said.

Brown said details for the terminal had not yet been worked out but indicated that testimony would be offered before the hearing ends.

FORD CANADIAN STOCK CLIMBING

NEW YORK, Jan. 15.—Likelihood of a split-up in stock of the Ford Motor Company of Canada, Ltd., suggested by current reports in the financial district here, was increased today when the stock opened on the curb exchange at an overnight advance of \$104 a share. The stock opened at \$825 a share, for 100 shares.

At its present price Ford Motor of Canada is the highest priced stock on the exchange and almost unavailable to the ordinary investor. Recent reports indicated a readjustment of capital structure. The company's capital consists of \$7,000,000 of \$100 par value stock. A cash dividend of 15 per cent was paid in May, 1927.

James M. Beck, Republican, of Pennsylvania, no longer need fear ouster proceedings at the hands of Congress. For the legality of his election to the House of Representatives was vindicated by a vote of his fellow members. It had been charged that he wasn't a resident of the State at the time of his election.

EXAMINE BODY

Babe's Wife Believed in Stupor When Fire Broke Out.

BOSTON, Jan. 15.—Acting on orders from District Attorney Robert T. Bushnell of Middlesex county, Medical Examiner George L. West today performed a second autopsy on the body of Mrs. George Herman "Babe" Ruth.

Medical examiner worked for nearly an hour on the body, which previously had lain in a casket in the Watertown undertaking rooms of W. H. Thomas.

BOSTON, Jan. 15.—Funeral services for Mrs. George Herman "Babe" Ruth, wife of the baseball home run king who lost her life in a fire in the Watertown home of Dr. Edward H. Kinder where Mrs. Babe Ruth was burned to death last Friday night, have placed a new angle on the investigation being conducted by state officials.

The bottles had contained drug store whisky, issued on a doctor's prescription. The state investigators are now endeavoring to find the physician who issued the prescription.

The body of Mrs. Ruth was today turned over to Medical Examiner George Burgess McGrath, for a second autopsy, the aim of which is to determine if the body contained poison.

Hint Woman Drugged. According to the state and fire officials, Mrs. Ruth was apparently in a stupor when the fire broke through the floor of her bedroom. The bed clothing was nearly piled on a chair and Mrs. Ruth was either sitting in a chair, in a stupor, or lying on the bed in a dazed condition, the investigators believe.

The fact that the woman's body was found within three feet of the door leading into a hall way that was free of smoke and fire, indicated that she did not possess her normal faculties, as otherwise she would have been able to reach the door and safety.

The authorities now believe that Mrs. Ruth may have been in a stupor from the whisky, or possibly, as relatives of the dead woman claim, may have been helpless from drugs. The investigation during the next few days will proceed along these lines.

Dr. Kinder Questioned. Dr. Kinder appearing at Watertown police station, was questioned at length by Police Chief John F. Milmore and was allowed to go.

The chief gave the dentist complete exoneration in a statement in which he said: "We are satisfied Dr. Kinder had nothing to do with the death of Mrs. Ruth."

Regarding the dentist's relations with Mrs. Ruth, Chief Milmore said: "Dr. Kinder told me he had lived with Mrs. Ruth off and on, as man and wife since 1297, but they never were married."

The much argued question when and where the "Sultan of Swat" and Helen Woodford were married was settled when Ruth announced the ceremony was performed on October 17, 1914, at Elkton, Cal., Maryland. The ceremony according to the rites of the Roman Catholic church was performed by the Rev. Father Thomas S. Dolan.

"I'm Through," Babe Declares. BOSTON, Jan. 15.—"This thing has licked me. I don't care if I never play baseball again. I'm through. The only thing I want is to get away from it all and go away somewhere—alone."

Babe Ruth, mightiest figure in baseball history, who has accepted every challenge in his fighting career in baseball, admitted in these words today that the blow of his wife's tragic death has crushed and defeated him in mind and body.

He admitted that his brilliant career lies in ruins at his feet, that his ambition is shattered and that at the apex of his triumph, he is a ruined man.

In his suite at the Brunswick hotel, Babe lay on his bed, tossing in agony, his eyes red from weeping, his hands trembling, his clothes rumpled.

Jewelry Missing. BOSTON, Jan. 15.—Discovery was made today by Watertown police that seventeen pieces of jewelry of Mrs. George Herman "Babe" Ruth were missing from the home of Dr. Edward H. Kinder, where Mrs. Ruth lost her life in a fire.

NEW LEXINGTON, O., Jan. 15.—William, the four-year-old son of Mr. and Mrs. Richard Harlan, Perry county farmers, was burned to death when the Harlan home near Somerset, north of here, was destroyed by fire this morning. The Harlans left their son in the house while they went about some farm work a few miles away. When they returned their home was a smoldering ruin. The boy's body, burned beyond recognition, was found in the ruins.

The origin of the fire is undetermined.

OHIO'S CHIEF DOWN TO WORK

Governor at Desk Despite Sore Arm and Shoulder.

COLUMBUS, O., Jan. 15.—Bothered somewhat by a sore arm and shoulder, due to shaking the hands of thousands of persons at the inaugural receptions, but "feeling fine" otherwise, Governor Myers Y. Cooper was at his desk in the governor's office today.

Due to the scores of well-wishers who thronged the chief executive's offices, insisting upon greeting him, Ohio's new governor was not able to devote much attention to official state matters today.

He indicated that the election fraud probe conducted by former Attorney General Edward C. Turner will be continued by Attorney General Gilbert Bettman.

The governor said he had received no request from Marietta authorities for an investigation of charges of mistreatment of the late Hamilton Jett, Marietta boy, while an inmate of the boys' industrial school at Lancaster.

Governor Cooper said he expected to announce late today a number of appointments to state positions.

Charles A. Jones, the governor's secretary, announced that Cooper will ask the senate this afternoon to return to the governor's office, without action, the list of recess appointments made by former Governor Vic Donahey. The list was sent to the senate by Donahey last week. It was promptly referred to the senate rules committee.

HOOVER'S SON GETS RADIO POST

LOS ANGELES, Cal., Jan. 15.—Herbert Hoover, Jr., 25-year-old son of the president-elect, was selected for the post of radio technician for the Western Air Express out of a score of applicants and because of his demonstrated fitness for the work.

This was the declaration made here today by Harris M. Hanshue, president and general manager of the company, in an exclusive interview with the International News Service.

The young son of the president-elect is expected to come to Los Angeles about February 1 to assume his duties, Hanshue said.

DEATH ROLL

Mrs. Mary E. Mitchell. Mrs. Mary E. Mitchell, 79, widow of Joseph E. Mitchell, formerly of East Liverpool, died yesterday in the home of her daughter, Mrs. Sarah Davis, Cleveland.

She leaves one son, George Mitchell, Winfield, Kan., and five daughters, Mrs. James A. McGonigal and Mrs. R. F. Neville, East Liverpool; Mrs. W. S. Cook, Marietta; Mrs. J. N. Sharpnack, Harrisville, W. Va., and Mrs. Davis.

The body will be taken to New Matamoras where burial will be made Thursday.

Mrs. Marianna Webster. NEGLEY, O., Jan. 15.—Funeral services were held here today for Mrs. Marianna Webster, 74, who died Sunday in the home of her son, Daniel Webster, after a long illness. The body was taken to North Bend, Ind., for burial.

She leaves two other sons, Milo Webster, Indianapolis, Ind., and Norman Webster, Erie, Pa.

WASHINGTON, Jan. 15.—Twenty-three states reported 55,429 new influenza cases for the week ending Jan. 12, as compared with 60,820 new cases the preceding week, the public health service announced today.

People of Vienna, Austria, are increasing their savings accounts in banks.

Clubs of England are raising funds by subscription for unemployed miners.

'THRILL' KILLER GOES ON TRIAL

Georgia Youth Held in Murder of Store Clerk.

ATLANTA, Ga., Jan. 15.—George Harsh's trail of reckless adventure led him today into a court of Georgia justice, to the menace of the electric chair, and to a grim fight for life.

The strain of the confessed "thrill" murderer's desperate plight was unmistakable in his solemn face, lined as no 19-year-old face has any right to be, as he entered the superior courtroom at 9 o'clock to answer the charge of killing Willard Smith, a store clerk.

The erstwhile university student is also under indictment for the murder of S. H. Meeks, another store clerk.

SIX ARE DEAD AS COLD WAVE HITS CHICAGO

Six-inch Snowfall Blankets Windy City.

MERCURY FALLS

Force of 1,000 Men Clear Streets and Sidewalks.

CHICAGO, Jan. 15.—With the city blanketed under a fresh six-inch fall of snow, Chicago's weather forecast was still "bearish" today.

"Another cold wave sending the mercury back to five below," was the substance of the bad news from the federal building. The forecast, however, was not altogether cheerless.

"Tomorrow generally fair with rising temperature," the report concluded.

Meanwhile Chicago had a force of 1,000 men clearing the streets and sidewalks of the heavy snow. Traffic was demoralized yesterday and last night.

Find Baby's Body Six deaths were attributed here to the newest cold wave. Two railroad men, their senses numbed by the cold, were killed; the body of a newly born baby was found frozen to death; two aged men died in their rooms and an other collapsed while shoveling snow.

The crest of the late extreme sub-zero wave has spread over the Atlantic coast states, but it is reported to have lost much of its fury.

The severe blizzard that followed the record drop in temperature here was general over the midwest. In sections of Iowa, Wisconsin and the northwest, highways and steam lines that had been cleared of previous snows at great cost were again clogged to traffic.

Trains arriving in Chicago from the west were far behind schedules.

He will be tried on that charge later. Richard Gallogly, Harsh's alleged accomplice, will go on trial January 29, Solicitor John A. Boykin announced.

Highway Plan Mapped By Roads Federation

Improvement From Empire to County Line and From Hammondsville to Yellow Creek Proposed in New Program.

WELLSVILLE, O., Jan. 15.—New plan would include a bond issue or construction work involving a cost of \$320,000 on two highways leading through Yellow Creek from Empire and Hammondsville, to Wellsville, is proposed in a state highway program, entailing the expenditure of \$150,000, within the next six months, which will be submitted to the legislature by the Ohio Goods Roads federation.

The program is designed to meet the needs of the state highway system until 1935 when the federation expects that "new transportation problems will present themselves which cannot be anticipated now." It is based on a survey of the entire mileage of the state's 11,000 mile system made last summer.

In Jefferson county, 29 miles of new construction to cost \$1,035,000 is proposed; five and a half miles of reconstruction to cost \$120,000, and \$250,000 to be spent on bridges.

Among the proposed new construction projects are listed: one mile on route 7 from the Yellow Creek children's home to the Columbiana county line, \$40,000; four miles on route 7 from Empire to Yellow Creek, \$200,000; and two miles on route 213, Hammondsville to Yellow Creek, \$80,000.

The program proposes new construction of 1,510 miles of road on the state system; reconstruction of 1,130.7 miles of worn out road; widening of 1,875.1 miles to a minimum of 20 feet and a maximum of 40; elimination of narrow bridges; aid in reconstruction of those portions of state highways passing through municipalities; grade crossing elimination.

Although the federation has not announced its financing plan, it is reported a one-cent gasoline tax may be proposed. Alternatives to such a

plan would include a bond issue or general property tax.

The federation points out the number of automobiles in Ohio has increased 109 per cent since 1922.

M'NAMEE HERE FOR PROGRAM

Famous Radio Announcer at High School Jan. 30.

Graham McNamee, famous radio announcer, appearing on the lyceum course of the Wellsville high school, will speak Wednesday night, Jan. 30, in the highway school auditorium here.

His talk, however, will be but a part of the program that has been announced for his entertainment here.

The first part will consist of a group of songs. The second will be his address, "You're on the Air" and the closing part another group of songs. In his song numbers, he will be accompanied by Mrs. J. F. Calhoun of Wellsville.

Seats for the attraction will be on sale at the C. N. Brannan drug store.

McNamee has announced the following program for his visit here:

Part One.
"Vittoria Mio Core"—Carrissini.
"Of the Stilly Night"—Old Irish.
"Some Rival Has Stolen My True Love Away"—Old English.

Part Two.
Talk—"You're on the Air."

Part Three.
"The Fields O' Ballyclare"—Turnery-Maley.

"Little Bateese"—O'Hara.

"The Great Awakening"—O'Hara.

"Mandalay" will serve as an encore selection in the final group.

KIWANIS WILL DISCUSS COURT

Plan proposed by the Bar association to place Wellsville civil cases in the jurisdiction of the East Liverpool municipal court will be discussed at the noon luncheon meeting of the Wellsville Kiwanis club today.

Talks will be made by members and visitors on various angles of the proposal.

DRAFT CAPITOL FINANCE PLAN

Senator Henshaw Offers Bill at Session of Legislature.

Plan for financing completion of the state capitol was presented to the legislature yesterday by Senator Harry P. Henshaw, Democrat, of Bunker Hill. The bill introduced by the minority floor leader would create a capitol at a cost not to exceed \$5,000,000 and presents two alternatives for raising the money.

The measure provides that construction be financed by appropriations of \$1,000,000 annually beginning in 1930, the appropriation to be included in the budget bill at its presentation to the legislature.

"If for any reason," the bill reads, the legislature fails to make such appropriations, then the board of public works shall, commencing with the fiscal year of 1930, lay a direct levy not to exceed five cents on each \$100 for such period as is necessary to meet the annual payments."

Custody of the fund which would be known as "the capitol building fund," would be given to the state treasurer, who would keep it in a separate fund and "all sums paid out under the provisions of this act shall be paid upon the recommendation of the capitol building commission."

The bill was referred to the finance committee.

Announcing OLDSMOBILE FOR 1929

Now—finer than ever, but at a new Lower Price

Oldsmobile now offers new engineering advancements that increase performance and dependability—new style refinements that result in even more vivid beauty and even more complete luxury... all at a substantial reduction in price!

Oldsmobile's big high-compression engine now delivers 62 horsepower. The piston pins are now pressure lubricated—an engineering feature heretofore characteristic of high-priced cars.

Interiors have been made more luxurious. Upholsteries are richer and more costly. Seat cushions are now deeper and softer.

Further, Oldsmobile has the wonderful new Fisher adjustable front seat, which may be moved instantly forward or backward to the exact position desired, simply by turning the seat-regulator. This feature, together with Oldsmobile's adjustable steering wheel, provides a new order of comfort for the driver.

Style touches include headlamps of new design mounted on chromium-plated standards, a new cadet-type visor, and an unusual selection of voguish new exterior color combinations.

Come in and see this finer Oldsmobile. It is the product of one of the industry's pioneer manufacturers, backed by the vast resources of General Motors. And it offers a combination of beauty, luxury, comfort, performance and value which simply cannot be matched at Oldsmobile's new lower price.

Independents Open With Pittsburghers Here Tomorrow Night

West Penn Title Winners Will Battle Potter Five

Local Management Dickers for Services of Lippe And Miller, Smoky City Stars; Seek Good Pivot Man Also.

TAKE a number of East Liverpool's leading cage performers, spice with a dash of outside talent, stir slowly, add five Knickerbocker paprikas, toss the whole gang into the public auditorium court and let 'em mix.

And there's the recipe, announces Manager Earl Greenawald of the East Liverpool Basketball club, for the city's first independent cage dish of the season. The serving is scheduled at 8:15 o'clock tomorrow night in the Second street sports arena, preceded by an appetizer in the way of a pre-lim between the Brian Clothiers and Newell high school fives. This will open the court program at 7:15.

The East Liverpool management is endeavoring to round up a well balanced team, strong in every phase. To date, everything has been taken care of in admirable style with the possible exception of a center adequate to cope with opposition that can be expected from the Pittsburgh club, champion of the West Penn league.

There should be no lack of scoring strength with Nate Lippe of the Pittsburgh Mules and coach at Woodlawn high school, Bill Miller from the Enoch Rahb club, Pittsburgh, and last, but not least, by any means,

First Smith, of East Liverpool, field goal shark not so long ago in Ohio conference basketball when he wore the colors of Western Reserve.

In addition, there will be Percy Wyant of Franklin & Marshall, Paul English of Glenville Normal and Joe Anne, local sandlotter.

The squad will be under the direction of Bill Watkins, coach.

The Knickerbockers are not new to East Liverpool basketball. The Pittsburghers have for several years been a strong contender in the annual Tri-State tournament here and the squad is rapidly forging ahead as one of the best independents in the Smoky City district.

The work of Forward Gil Hunter has been a big factor in the championship victories of the Knickerbockers. Formerly with Trinity Choir, Hunter was signed by the Knickerbockers this season. His remarkable shooting made him a brilliant figure in their march to success as title winners of the first half West Penn campaign.

Even though playing under severe handicaps, with illness keeping him from flashing his speed, Hunter proved a godsend to the Knickerbockers. Not alone has Hunter's goal miking been sensational but his general all-around playing has been of a sterling character, making him a favorite with his associates and West Penn fandom in general.

Since co-operating with other outstanding stars on the Knickerbockers' own play has improved. The Pottery will find him worth watching when he cuts loose tomorrow night.

Brian Clothiers have lined up a formidable array of talent for their pre-lim clash with the West Virginia school team. Among the Brian performers will be Todd, formerly of Frank & Marshall and Marshall college; Reese, Bethany; McGraw, former local high school player; Bromby and Allison of Glenville Normal. Todd and Reese will be on the forwards, McGraw at center and Bromby and Allison at the guards.

M. E., Orchard Grove Quints Are Winners

Defeat Christians, M. E. (B) in Sunday School Games.

Scoring five points in the final quarter while holding the opposition to a blank, the M. E. (A) quint of the Sunday school league last night defeated the Christians, 29 to 16, on the M. E. court. In the other league game, the Orchard Groves won from the M. E. (B) five, 29 to 22.

The Christians were out in front, 16-15, when the third period ended, but were unable to locate the basket again in the closing canto.

Orchard Groves held a consistent lead in their game with the M. E. "Bees."

Cooper, Orchard Grove forward, led the scores for the night, with 14 points; Smith of the "Bees" nine; Reese of the Christians and Cook of the M. E. (A) team eight apiece.

The St. Stephens and the Chester squads are billed in tonight's encounter, the event being scheduled for the Chester court.

Ah-Ha! So Our Maxie Was K.O.'d

Fistic Skeeltons Rattle as Teuton's Record is Probed.

By Davis J. Walsh.

NEW YORK, Jan. 15.—It is not without misgivings that I take typewriter resolutely in hand today and record certain representations which seem to indicate that one might do worse than see more and say less of this gift to the faded business man, Max Schmeling, pending further developments. The fellow already has been read into the heavyweight championship by those critics, whose breadth of vision is so great that they can read Lincoln's Gettysburg address, when printed very distinctly upon the point of a needle. The writer himself was a bit enthused. But that was before the great revelation.

Not long before coming to this country from Germany to utterly confound all witnesses, it seems that Max Schmeling was unfortunate enough to suffer the ignominy of a knockout. It didn't come at the conclusion of a hard fight; it didn't even come near the end of one round. It came at the conclusion of one punch.

Gus Wilson Says So.

Gus Wilson, Carpenter's trainer, Dempsey's boy friend and a man who has committed his life to the importation of foreign fighters of some note and none at all, is the authority for this statement. It is supported, I have been given to understand, by the records, which may account for the fact that the latter haven't been flaunted promiscuously by Joe Jacobs, who usually flaunts without the slightest provocation.

I am sure he had no incentive in this case because the man who won in a punch is Gypsy Daniels and if you don't know who he is, your education hasn't been neglected. It has been saved.

To catch up with the Gypsy, we must flash back to James J. Johnston, the kid himself, and see him some few years ago in the throes of an idea that was to produce the heavyweight champion from the skate type of the want-ad columns. He would advertise for a bright young man, weighing not less than 190 pounds nor more than the average player piano, who was willing to start at the bottom of a profession that ultimately would pay off handsomely. I think James mentioned millions but forgot to say whether these would be dollars or slightly used toothbrushes.

Daniels Won Tournament.

It really didn't matter, for it appeared that all the bright young men in New York happened to be at leisure that day and they found their way into James' office, without having to ask the way from more than a half dozen different strangers. Among them was Gypsy Daniels and the only reason that this is of the slightest importance is that I believe the Gypsy ultimately won the tournament which James staged in honor of all the applicants at Madison Square Garden. Having done that much, the Gypsy was through and, when they are through under James' auspices, they simply are all over and done with. It was the consensus of opinion that Gypsy Daniels was the only man in the world who couldn't lick anybody.

It seems this was a grave error. The Gypsy not only could lick Max Schmeling; he did lick him.

Probably it is smart to try to prove something by one knockout, which after all is an incident that usually may be explained, plausibly. But neither does it cause one to make haste hurriedly in extolling the Herr Max in future references, particularly in view of the Gypsy Daniels connection. As I understand that young man, he couldn't knock your nose glasses off with a brick in his hand.

Golfing Phenom!

He's burning up the fairways on the Pacific coast just now. So it isn't surprising that the eyes of the golfing world are upon Horton Smith (above), twenty-year-old Joplin, Mo., professional, who out-Haiged "the Haig" recently over the difficult Catalina Island course. Smith is one of the entrants in the fourth annual Los Angeles open championships. (International Newswire)

"Gob" Larson Meets Perry In Alliance

Featherweights are Billed for 10-rounder Tonight.

ALLIANCE, Jan. 15.—Sailor Larson, the only battler ever to knock out Ray Miller, bride of Chicago, will box Jimmy Perry of Alliance in the 10-round feature bout in the new downtown Barnes' auditorium, tonight. Larson hails from Moline, Ill. He has met and beaten or held even many of the best featherweights in the racket. February 1, Larson boxes Bud Taylor, former world's bantamweight champion, at Dayton.

This show will mark Alliance's bid for recognition as one of northeastern Ohio's best boxing centers. The new Barnes' auditorium will easily accommodate 2,000 fans for boxing shows.

Tuesday night's card will consist of 30 rounds. The semi-final will be an eight rounder featuring Charley Court, Cincinnati lightie, against "Chick" Walker of Akron.

Bill Reeder of Alliance and "Batling" Brian of Sebring, a pair of heavyweights, will exchange wallop in one of the four round preliminaries. Joe Long, hard slugging Alliance bantam and Young Shippey, willing mixer from Barborton, will tangle in a six round prelim. The other four round preliminary will feature Earl Grates of Alliance and Jimmy Lee of Sebring. They are lightweights.

Nell Loden, Alliance, will referee the semi-final and the main go. The Alliance City band under the direction of Professor Emil Rinkendorf, nationally known band leader, will present a concert before the show. The first bout will start promptly at 8:30.

MARMONS GIVEN FORFEIT GAME

Stutz quint got caught in the snow or something and didn't arrive on time for their game with the Marmons in the "Y" Senior circuit last night. As a result, the Marmons rode off with a forfeit win and then trimmed a pickup squad, 59 to 33, in an exhibition tilt.

MIDLAND TEAMS PLAY ALIQUIPPA

MIDLAND, Pa., Jan. 15.—The Lincoln High varsity and reserve basketball teams will clash tonight with the teams from Aliquippa on the high school floor.

The Blue and Gold varsity team has won one game this season out of three played. The reserve squad has also made a one-third percentage.

The Aliquippa quint has won three out of three games played and are holders of first place in the county W. P. I. A. so far this year.

Northwestern Defeats Ohio In Hot Scrap

Purple Hangs Up First Conference Win, 27-24.

COLUMBUS, O., Jan. 15.—Northwestern university was enroute home today with its first Big Ten basketball victory to its credit this season, pulling one of those "hot" games out of the fire in the last minute of play here last night. The final whistle found the Purple with 27 counters to Ohio State's 24.

It was a catch-as-catch-can game throughout, first Ohio leading, then Northwestern. With 30 seconds left to play the score was 25 to 24. Twice in this fraction of a minute Ohio was given free throws, to no avail; and as the game ended Walter's toss was in the air. It swished through and Northwestern had won its first game in four starts. Ohio State dropped back to a .500 percentage mark.

Keep Head Cool, Feet Dry, Says Mason, 103

Oldest Lodge Member Who Will Celebrate Birthday on Feb. 5, Adds One Secret of Longevity is Behavior.

CHARLTON, Mass.—"First behavior myself; then keeping my head cool and my feet dry."

This was the secret of longevity as told by Lepellet Miller Logee, the country's oldest Mason, inmate of the Masonic home here, who hopes to celebrate his 103rd birthday on February 5. He was born in Burrillville, R. I., in 1826 and has outlived all his relatives.

A good part of Logee's life had been spent as a textile operative. He had worked for a time in Fall River, New Bedford, and then removed to the south, later returning to his beloved New England.

His first vote for president was in 1848, and today he can recall 17 men who have been chief executive of the United States during his lifetime. He can relate at will who was the longest to serve, the youngest and the oldest.

Mr. Logee's memory goes back to the Civil war, beyond that to the Mexican war of 1847 and much of his knowledge of the war of 1812 with Great Britain was acquired not so much from history as from conversing with those who had taken part in it.

Probably the oldest living Mason

in the United States, Logee is in full possession of all his faculties, and delights in taking a daily stroll about the grounds of the home here, or making an occasional trip to nearby Worcester.

FOR EIGHT YEARS PAIN HELD SWAY: KONJOLA TRIUMPHS

Terrible Rheumatism and Distressing Kidney Trouble Routed by Six Bottles Of Konjola

MR. AUGUST BARMHART
Konjola's success is due to the fact that its 32 ingredients, working singly and together, go directly to the source, the cause of the ailment. Organs are cleansed and stimulated; the system is cleared of poisons, and soon comes new health, glorious and permanent.

"For eight years I suffered from rheumatism and kidney trouble," says Mr. August Barmhart 410 East Fifth street, Dove, Ohio. "The pains I endured were beyond words. For these eight years I could not work, as the rheumatism crippled my legs. At night I had to rise as many as eight times because of my kidneys. Everyone knows how I suffered, for I have lived in Dove, 20 years. Konjola was so strongly recommended that I felt that I should give it a trial. Certainly it could fail no more completely than all other medicines had. But this Konjola food me. In six weeks, after taking six bottles, I was completely well, with my kidneys functioning correctly and every pain of rheumatism gone. Work is a joy, and no wonder, after eight agonizing years of pain and idleness. And I am astounded when I think that Konjola did all this for me in six weeks."

Konjola is sold in East Liverpool, O., at Carnahan drug store, and by all the best druggists in all towns throughout this entire section.—Adv.

FISH SCALES BECOME VALUABLE BY-PRODUCT OF MAINE INDUSTRY

EASTPORT, Me.—Fish scales, hitherto thrown away in tons by fishermen along the Maine coast have been transformed from a waste material into a veritable gold mine as a by-product.

Pearl essence plants, located in Eastport, Lubec, Rockland, Portland and other Maine towns and cities in the vicinity of the fishing industry, are offering seven cents a pound for fish scales.

During the past season, it is said, the total price paid for fish scales reached \$250,000.

A hundred pounds of fish scales, for which the essence factories pay \$7 is required to produce one pound of pearl essence worth \$125 on the New York market.

This pearl essence is shipped to New York, where, through an elaborate process, it becomes a paste, used extensively in the manufacture of knife handles, artificial pearls and other necklaces, and miscellaneous jewelry.

LITTLE CHATS ABOUT YOUR HEALTH HOW THE LAW PROTECTS YOUR NEIGHBOR BUT OVERLOOKS YOU

The state recognizes the dangers of medical practice by the unskilled and consequently demands capability as expressed by years of study in a recognized medical college and by the further passage of an examination by the state board.

It thus prevents medical practice at large by those unqualified—but it cannot prevent self diagnosis and self medication by the individual, which, if generally practiced, would be equally dangerous.

Why attempt to do for yourself what you are thus prohibited from doing for your neighbor?

When you are ill don't take dangerous chances by practicing on yourself.

Go to your doctor and obey his directions.

Let us fill your prescriptions. You will find our service unsurpassed.

Policyholders Pay \$80,000,000 Special Taxes You Share in This Bill

THE users of insurance in the United States are indirectly but actually burdened with a vast sum—approximately \$80,000,000.00 annually—by taxes additional to the regular taxes paid by insurance in common with other lines of industry. This money is a burden upon the premium of the policyholder, even though it is collected from the insurer.

The original purpose of these additional taxes upon insurance was to maintain state supervision of the business, but such supervision uses but four cents of each dollar, and the balance—about \$77,000,000.00—is an additional burden upon you, Mr. Policyholder, that goes into the general state treasuries.

The Chamber of Commerce of the United States has adopted the following resolution:

"Special State Taxes now levied on Policy holders through insurance companies should not be considered as a source of general revenue, but should be reduced to the total in each state which will adequately support such state's departmental supervision."

The Stock Fire Insurance Companies (which transact by far the greater portion of the fire insurance business of the country) want you to realize this condition and its effect upon the cost of your fire insurance.
